

Does your Civil War cannon look like this?

The John A. Logan Camp #26 can help!

Restoring a Civil War cannon can be difficult, time consuming, and often costly. As it is our mission as Sons of Union Veterans to help restore monuments in disrepair, we want to help!

How it works

1. Contact us! Our website is www.logancamp26.com and has our camp commander's contact information. If your cannon is near another camp, we will refer you to their counterpart to complete the project.
2. We will come photograph and assess the monument or cannon.
3. Once we have seen it, we will plan a time to come out and start work. Outdoor work also depends on the weather.
4. Our repair process is simple- A) remove surface coating, B) Wash, C) Prime and paint or polish, and F) Rededicate officially using a Grand Army of the Republic format.
5. What we use: non-marring tools, heavy duty implement paint and elbow grease.
6. What it will cost you= \$0. We accept donations to help offset our cost, approximately \$100 per cannon, but do not require them. Donations of materials are also accepted.
7. If you want to see our work, you can visit the following guns in person or view the pictures on our website that are listed below.

We look forward to hearing from you!

20 PDR Parrott
Rockton Cemetery
Rockton, Illinois
Erected 1897
Restored 2008

8-inch Siege Howitzer
Kishwaukee Cemetery
Rockford, Illinois
Erected 1905
